

Yuen Yi Foo

Senior Visual Designer

Kuala Lumpur, Malaysia

Senior Visual Designer with 9+ years at a single company, shaping the visual evolution of FootfallCam, an enterprise IoT and people-counting analytics platform, from a hardware manufacturer to an AI-first product. Self-initiated the company's first scalable design system and now direct visual output across a 9-person cross-functional team spanning design, frontend, video, and product.

Experience

Meta Research (FootfallCam • Magic Mirror • NurseryWeb)

Associate Multimedia Manager (Team Lead) | 2024 - 2025

- Led visual direction across FootfallCam's website, marketing campaigns, documentation, packaging, and exhibition materials.
- Defined the initial visual direction for FootfallCam's analytics dashboard, then handed off to a junior designer to continue full development.
- Directed and reviewed output across a 9-person cross-functional team, including graphic/UI designers, frontend, video/3D, product design, and CMS, setting the visual standard for a fast-turnover, multi-discipline group.
- Extended the Figma design system, self-initiated during the prior role, into company-wide templates and reusable components that improved consistency and production speed across teams.
- Served as the primary design liaison between business development and multimedia production, translating business requirements into coordinated visual deliverables.

Senior Graphic Designer (Team Lead) | 2019 - 2024

- Led the redesign of the FootfallCam website, evolving the visual identity from a hardware manufacturer to an enterprise AI analytics platform.
- Proactively built FootfallCam's first scalable Figma design system, without a formal request from leadership, enabling faster website production and consistent UI across hundreds of pages.
- Designed marketing campaigns, technical graphics, pitch decks, product videos, webinar materials, and exhibition assets.
- Partnered closely with business development to transform technical content into clear, engaging customer experiences.
- Established a collaborative production workflow between design, frontend, and content teams, allowing website pages to be developed in parallel while maintaining design quality.

Graphic Designer | 2017 - 2019

- Led the first major redesign of the FootfallCam website, creating a stronger manufacturing-focused brand identity that differentiated the company in the B2B market.
- Designed websites and brand identities for NurseryWeb clients, from logo concepts to complete website UI.
- Designed immersive kiosk interfaces for Magic Mirror, creating touch-first experiences that balanced usability with engaging visual interactions.
- Produced marketing visuals, website graphics, and promotional assets across multiple company products.

Associate Graphic Designer | 2016 - 2017

- Designed logos and website interfaces for NurseryWeb clients under senior guidance.
- Supported website graphics and marketing assets for FootfallCam while supporting website production across multiple brands.

Earlier Experience

The Muse Entertainment - Graphic Intern | 2015

Designed branding materials and customized event print assets, including photostrips and photobooks, ensuring every client's event had a unique and consistent visual identity.
